

PRESS RELEASE

July 18, 2014

The Municipality of Morris-Turnberry has improved their website to benefit everyone!

The Municipality of Morris-Turnberry's website has been revamped. The entire site has been redesigned to be improved for everyone, so Municipal news and information is easier to find.

The new website is easier to navigate, and we have complied with the new accessibility legislation. The site has been cleaned up and the home page has improved to provide drop down menus to direct the visitors where they want to go faster.

The website has a full mobile site as well that can be viewed on tablets and smart phones , far easier then the full site when on the go.

Browse Aloud has been included for accessibility, this program allows the ability to read the site to someone as well as the ability to adjust text size. Council agendas and reports that go online will be accessible, including all PDF's. Staff has been trained on how to keep the site working properly.

The Website includes an up to date Business Directory, including an online form if you have a business you would like to add.

All social media is connected to the site, so every time a tweet is posted it will reflect on the website as well.

The Municipal website can be updated from anywhere, so if we are unable to get in the Municipal office, it can be updated off site so the most up to date information is on the site.

Quote of Mayor, Paul Gowing "The newly designed website will be much more user friendly for both residents and visitors to Morris-Turnberry. In the world today, it is so important to be connected to the internet and social media and have easily accessible, correct and up to date information. Please visit us at www.morristurnberry.ca "

The website is now up and running, so take some time and check it out. If you have any questions or concerns, contact the Municipal office through the online form on the new home page!
